Washington 25, D. C.

Dear Alex:

Pursuant to your letter in which you request copies of Abstracts of Soviet Medicine-- Parts A and B, please be advised that we are placing your library on our distribution list, so that the entire output of the NIH Russian Translation Program will be available to the CIA.

For your further information, we are enclosing a copy of the Outline of Soviet Translation Program conducted by the NIH, and a copy of the circular letter addressed to the librarians of all the medical libraries on the distribution list.

Sincerely yours,

Scott

Scott Adams, Librarian  
National Institutes of Health
